

TABLE OF CONTENTS

1.0	Executive Summary	1
1.1.	Ten-Year Trends	1
1.2.	2003 Collisions	1
1.3.	Safety Related Projects and Programs	2
1.4.	Recommendations.....	4
2.0	Introduction.....	6
2.1.	Report Purpose.....	6
2.2.	Information Sources.....	6
2.3.	Report Organization.....	8
3.0	External Factors	9
4.0	Collision Trends.....	10
4.1.	Overall Trends	10
4.2.	Ten Year Collision History	10
4.3.	Ten Year Societal Cost	11
4.4.	Ten Year Estimated Accident Rate.....	12
4.5.	Ten Year Pedestrian and Bicycle Collision History	13
4.6.	Ten Year Motorcycle Collision History	15
5.0	Collision Types	16
5.1.	Run-Off-Road Collisions	18
5.2.	Rear-End Collisions	21
5.3.	Right Angle Collisions.....	22
5.4.	Left Turn Collisions	23
5.5.	Parked Car Collisions	24
5.6.	Sideswipes.....	25
5.7.	Head-On Collisions.....	26
5.8.	Pedestrian Collisions.....	27
5.9.	Bicycle Collisions	30
5.10.	Motorcycle Collisions	32
6.0	Other Collision Information.....	33
6.1.	Time and Day of Week	33
6.2.	Weather and Road Surface Conditions	34
6.3.	Collision Locations	35
6.4.	Demographics	39
6.5.	Contributing Circumstances.....	40
6.6.	Special Studies	41
7.0	Safety Related Projects and Programs	42
7.1.	Roadside Safety	42
7.2.	HAL/HARS.....	43
7.3.	Traffic Signals.....	46
7.4.	CIP Projects	48
7.5.	Traffic Signs.....	49
7.6.	Pedestrian Projects	50
7.7.	School Pathways	51
7.8.	Safety Investigations	51
7.9.	Enforcement.....	52
7.10.	Neighborhood Traffic Safety	52

TABLE OF CONTENTS

7.11. Collision Records.....	53
8.0 Recommendations.....	54
8.1. Roadside Objects	54
8.2. GIS Capability	54
8.3. Motorcycle Collisions.....	55
8.4. Younger Drivers.....	55
8.5. “Top Ten” Arterials	55
Data Sources	Appendix A
Formulas Used in this Report	Appendix B
Additional Tables & Figures.....	Appendix C
STEP Program Information	Appendix D

TABLE OF CONTENTS

TABLES

Table 1: Population, Road Miles, and Traffic Volumes	9
Table 2: 10-Year Collision History	11
Table 3: Pedestrian Collisions by Action and Priority.....	27
Table 4: Bicycle Collisions by Collision Type	30
Table 5: Arterial Roadways with Highest Accident Rates	37
Table 6: 2003 Collisions by Age and Gender.....	38
Table 7: Status of 1996 HAL/HARSSs.....	43
Table 8: 2002 HAL/HARSSs Project Breakdown	44
Table 9: Summary of Results - HAL/HARS Before/After Studies	44
Table 10: Arterial Roadways with Highest Accident Rates/Comparison with CIP	48

FIGURES

Figure 1: Estimated Annual Collision Costs.....	11
Figure 2: Estimated Accident Rate	12
Figure 3: Pedestrian Collision History.....	13
Figure 4: Bicycle Collision History	14
Figure 5: Pedestrian and Bicycle Collisions per 10,000 Population	14
Figure 6: Motorcycle Collision History	15
Figure 7: 2003 Collisions by Accident Type	16
Figure 8: 2003 Fatal Collisions by Accident Type	17
Figure 9: 2003 Run-Off-Road Collisions by Severity	19
Figure 10: 2003 Run-Off-Road Collisions by Object Struck	19
Figure 11: 2003 Rear End Collisions by Severity	20
Figure 12: 2003 Right Angle Collisions by Severity	21
Figure 13: 2003 Left Turn Collisions by Severity	22
Figure 14: 2003 Parked Car Collisions by Severity.....	23
Figure 15: 2003 Sideswipe Collisions by Severity	24
Figure 16: 2003 Head-On Collisions by Severity.....	25
Figure 17: 2003 Pedestrian Collisions by Severity.....	26
Figure 18: 2003 Pedestrian Collisions by Age	27
Figure 19: 1994-2003 Pedestrian Collisions by Age	27
Figure 20: 2003 Pedestrian Collisions by Location.....	28
Figure 21: 2003 Bicycle Collisions by Severity	29
Figure 22: 2003 Bicycle Collisions by Age	30
Figure 23: 1994-2003 Bicycle Collisions by Age.....	30
Figure 24: 2003 Motorcycle Collisions by Severity	31
Figure 25: 2003 Collisions by Time and Day of Week	32
